QUILL CAPITA TRUST
EXPLANATORY NOTES FOR PERIOD ENDED 31 MARCH 2012

A1 BASIS OF PREPARATION

The financial statements have been prepared under the historical cost convention except for investment properties and derivative financial instruments which are stated at fair value and presented in Ringgit Malaysia (RM).

The financial statements comply with the Malaysian Financial Reporting Standards, provisions of the Trust Deed and the Securities Commission's Guidelines on Real Estate Investment Trusts.

These are QCT's condensed consolidated interim financial statements for part of the period covered by QCT's first MFRS framework annual financial statements and MFRS1, First-Time Adoption of Malaysian Financial Reporting Standards has been applied. The transition to MFRS framework does not have any financial impact to the financial statement of QCT.

A2 BASIS OF CONSOLIDATION

The consolidated financial statements include the financial statements of QCT and its special purpose entities ("SPEs"). The SPEs were established for the specific purpose of raising financing on behalf of QCT. A SPE is consolidated if, based on an evaluation of the substance of its relationship with QCT and the SPE's risks and rewards, QCT concludes that it controls the SPE. SPEs controlled by QCT were established under terms that impose strict limitations on the decision-making powers of the SPE's management resulting in QCT receiving all of the benefits related to the SPE's operations and net assets.

A3 CHANGES IN ACCOUNTING POLICIES

These unaudited interim financial statements are for part of the period covered by QCT's first annual financial statements prepared under the MFRS framework. Accordingly, QCT has applied MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards in the transition to the MFRS framework on 1 January 2012. The MFRS did not result in any financial impact to QCT as the accounting policies adopted under the previous FRS framework were already in line with the requirements of the MFRS framework.

B1 REVIEW OF PERFORMANCE

Quarter and year todate results

QCT recorded total revenue of RM17.78 million and property operating expenses of RM4.49 million respectively for the current quarter ended 31 March 2012. Realised income of RM8.07 million was achieved. Borrowing costs of RM3.46 million and manager's fee of RM1.36 million were incurred during the quarter.

As compared with the preceding year corresponding quarter, the revenue is about 1.5% higher due mainly to increase in rental rates of some properties. Property operating expenses are higher marginally by 0.2%. Finance costs is 3.5% lower due to lower interest costs during the quarter. This is due mainly to the Manager's active interest rate management strategy to refinance QCT's borrowings and its ability to procure cheaper financing costs. Administrative expenses are higher by about 10.2% due to higher professional fees incurred in the current quarter. The realised income of RM8.07 million is 5.1% higher than the preceding year corresponding quarter mainly due to higher net income from the properties, lower finance cost net of higher administrative expenses in the current quarter.

As compared with the immediate preceding quarter, revenue of RM17.78 million is higher by 1.6% mainly due to a new tenant. Property operating expenses were lower by 2.1% due to lesser repair cost incurred. Finance costs are lower by 7.8% mainly due to lower interest on borrowings and adjustments to amortisation of transaction costs in the current quarter. There is no major variance between the realised income of the current quarter as compared with the immediate preceding quarter.

The performance of QCT for the quarter and period ended 31 March 2012 is in line with the investment objective of QCT.

B2 INVESTMENT OBJECTIVES AND STRATEGIES

The investment objective of QCT is to acquire and invest in commercial properties primarily in Malaysia with a view to provide long-term growth and sustainable distribution of income to unitholders to achieve long-term growth in the net asset value per unit. There has been no change in the investment objective of QCT since the date of QCT's Annual Report for 2011.

The Manager will continue to focus on its portfolio management and acquisition growth strategy, active asset management strategy and capital management strategy to achieve the objective of QCT. There has been no change in the strategies employed by the Manager since the date of QCT's Annual Report for 2011 as they remain relevant in the current market conditions.

B3 REVIEW OF THE MARKETS IN WHICH QCT INVESTS IN DURING THE PERIOD AND GENERAL ASSESSMENT OF THE FUTURE PROSPECTS OF THESE MARKETS

Review of Office Market - Klang Valley

For 4Q 2011, there is no change in the overall rents compared with 3Q 2011. The overall occupancy rate in KL city centre rose 1.2% from the previous quarter to 84.5% while in the fringes of KL, dipped 3.3% to 86%. The Klang Valley office market is expected to remain challenging for the next 2- 3 years with new supply in excess of 12 million sq. ft. coming on stream now until 2014.

B3 REVIEW OF THE MARKETS IN WHICH QCT INVESTS IN DURING THE PERIOD AND GENERAL ASSESSMENT OF THE FUTURE PROSPECTS OF THESE MARKETS (CONT'D)

Review of retail market - Klang Valley

With the continuing government support, the retail market continue to be resilient and vibrant with high occupancy rates especially in the popular and established malls. The Klang Valley retail sector achieved an average occupancy of 85% for the past 5 years. However, rental rates are expected to remain challenging especially in outer KL and suburban areas where future supply is concentrated.

Review of retail market - Penang

The retail sector in Penang will continue to expand with overall existing supply increasing slightly to approximately 9.5 million sq. ft. of net lettable area while the overall occupancy rate stands at 74% as at end 2011.

(Sources : The Edge Knight Frank Klang Valley Office Monitor 4Q 2011 and CH Williams Talhar & Wong Property Report 2012)

B4 PROSPECTS

The overall office demand-supply is expected to be softer this year due to the entry of new supply to the market. However, the Manager will continue to explore acquisition opportunities as well as to focus on active asset management and capital and portfolio management initiatives.

For leases due for renewal in 2012 which amounts to 38% of total Net Lettable Area, 14% has been renewed, 5% did not renew and 19% is not due for renewal as at the first quarter. Notwithstanding, the lease that was not renewed namely QB10-HSBC Section 13 which contributes less than 3% of QCT's total rental income for 2012, we are confident that the lease will be taken up as negotiations with a few potential new tenants are already in progress. The Manager is confident that QCT will be able to achieve sustainable income distribution for the year.

B5 REVENUE RECOGNITION

Revenue is recognised to the extent that it is probable that the economic benefits will flow to QCT and the revenue can be reliably measured.

Revenues from the rental of investment properties, service charges, car park income and utilities recovery are recognised on an accrual basis.

B6 PROFIT FORECAST / PROFIT GUARANTEE VARIANCE**a) Profit forecast**

If the REIT is unable to meet the 90% distribution criteria, the entire taxable income of the REIT for the year would be subject to income tax.

As QCT intends to distribute at least 90% of its total income for the year to its unitholders, no provision for tax has been made in the current quarter.

B15 DERIVATIVE FINANCIAL INSTRUMENTS

As part of the active interest rate management strategy of QCT, the following Interest Rate Swap ("IRS") arrangements have been entered into and are still in place as at the reporting date:

- (i) On 18 August 2008, an IRS arrangement swapping fixed rate for floating rate for a notional amount of RM64 million ("IRS No.2") was entered into in relation to the RM64 million nominal value MTNs issued by the Manager with the Bank. Pursuant to IRS No. 2, QCT will pay a floating rate to the Bank whilst the Bank will pay a fixed rate of 5.2% p.a to QCT. IRS No.2 commenced on 15 September 2008 and will mature on 17 September 2013.
- (ii) On 5 November 2008, an IRS arrangement swapping floating rate for fixed rate for a notional amount of RM64 million ("IRS No.4") was entered into in relation to the RM64 million nominal value MTNs issued by the Manager with the Bank. Pursuant to IRS No.4, QCT will pay a fixed rate of 4.36% p.a to the Bank whilst the Bank will pay a floating rate to QCT. IRS No. 4 commenced on 16 March 2009 and will mature on 17 September 2013.
- (iii) On 21 November 2011, an IRS arrangement swapping floating rate for fixed rate for a notional amount of RM65 million ("IRS No.5") was entered into in relation to part of the RM 130 million CPs issued by Kinabalu. Pursuant to IRS No.5, QCT will pay a fixed rate of 3.34 % to the Bank whilst the Bank will pay a floating rate to QCT. IRS No.5 commenced on 30 November 2011 and will mature on 5 September 2016.
- (iv) On 21 November 2011, an IRS arrangement swapping floating rate for fixed rate for a notional amount of RM65 million ("IRS No.6 ") was entered into in relation to part of the RM 130 million CPs issued by Kinabalu. The differences between the floating rate and the fixed rate of the respective IRSs are settled between QCT and the Bank semi-annually and are charged or credited to the statement of comprehensive income accordingly.

The risk associated with the IRSs above would be credit risk, which is the counterparty risk of the financial institutions with whom the IRSs were contracted. However, the Manager has taken precaution to mitigate this risk by entering the IRSs contracts with reputable licensed financial institutions.

The fair values of the IRSs and the maturity profile as at 31 March 2012 are as follows:

	Fair values of derivative assets/(liabilities) as at 31 March 2012
	RM
- less than one year	-
- one to three years	761,819

Total	<u>2,130,694</u>

QCT was eligible to apply hedge accounting for its IRSs wef 1 October 2010, and changes in fair values of the IRSs since then were recognised in other comprehensive income. Prior to adoption of hedge accounting, the fair value changes of the IRSs were recognised in the profit or loss.
